

## Stupid Times

These days I always wake up  
And have nothing to do.  
I look through the window  
And watch the rain falling  
Down on the street.  
The only thing I think about  
Why can't we all go to school?  
All I want is to talk and walk with my friends.

I like to learn English and Maths.

I would do anything that this bloody virus will go away.  
But I think this won't happen that day.

Now I'm sitting in my room  
Thinking about this and that.  
My room is a mess  
Of staying in bed.

I like to learn English and Maths.

On TV there is nothing to watch.  
My friends aren't here to touch.

After lunch the day goes on  
And there's still nothing to do  
The only thing that will come true  
Is my riding lesson  
This is what I want to do.

I feel my heart beating quick  
When I think of the horses I don't feel sick.

On the back of my horse I'm happy again  
I feel free.  
I want to ride every day  
This is my life I can't run away.

Oh I want to learn English and Maths  
So I do my best.

Meeting friends and having fun  
Is my dream  
I feel some day I can meet them again.

I want to learn English and Maths

This virus will go away

So stay strong and do your way.
